

# The Grange

*Winemakers Notes: From a spectacular 22 year old Casa Dea vineyard, on Greer rd. the grapes were hand harvested and fermented whole cluster then finished in barrel with plenty of lees stirring imparting texture to the wine. Fermentation was lengthy and spontaneous with no need to inoculate.*

Be it a helping Hand in the vineyard or growing for each other, small craft wineries are working together to create expressive wines that speak of amazing people and their terroir.

The Grange of Prince Edward has been crafting wines here in the County since 2003. We are proud to collaborate with growers all over Ontario to create expressive terroir driven wines.
